- Semantic & Clean Code
- HTML Extensive Documentation

## Cross Browser

The Zeyn Wordpress Theme has been successfully tested with the major browsers.

- Mozilla Firefox
- Google Chrome
- Internet Explorer 10
- Safari
- Opera

## Get Started

### Wordpress Requirements

Zeyn requires at least WordPress version 3.5+ to work properly.

### Installation

To install this theme you must have a working version of WordPress already installed. For information in regard to installing the WordPress platform, please see the WordPress Codex

Installing this theme is just like any other WordPress theme, either by uploading the main theme folder via FTP (unzipped) or the zipped file via the Wordpress theme upload section.

### Using FTP

- Log into your site via FTP
- Browse to your folder located at wp-content/themes
- Upload the MAIN theme folder. This is the folder located inside the “upload” folder in the zip file that you downloaded from Themeforest.
- Log Into Wordpress and go to Appearance > Themes
- Find the theme and click to activate

## Using WordPress

- Log into your WP dashboard
- Browse to Appearance > Themes
- Click to “add new” and then follow the instructions on the screen
- When it asks to select a file find the zipped theme folder located in the “upload” folder in the zip downloaded from Themeforest.

After the theme activated, install plugins by clicking link **Begin Installing Plugins**. You need to install **Detheme Portfolio** plugin, **Detheme Visual Composer Add On** plugin, **Detheme Megamenu** plugin, **WPBakery Visual Composer** plugin, **Slider Revolution** plugin, and **Contact Form 7** plugin.

The screenshot shows the 'Plugins' section of the WordPress admin dashboard. At the top, there's a blue header bar with the 'Plugins' tab and an 'Add New' button. Below this, a green vertical bar on the left contains two messages: 'This theme requires the following plugins: *Revolution Slider* and *WPBakery Visual Composer*' and 'This theme recommends the following plugins: *Contact Form 7*, *Detheme Megamenu Plugin*, *Detheme Portfolio*, *Detheme Visual Composer Add On*, *Easy Google Fonts*, *WP Options Importer* and *WordPress Importer*'. At the bottom of this green area are two blue links: 'Begin installing plugins' and 'Dismiss this notice'.

### Required Plugin

After the **Detheme Portfolio** plugin, **Detheme Visual Composer Add On** plugin, **Detheme Megamenu** plugin, **WPBakery Visual Composer** plugin, **Slider Revolution** plugin, and **Contact Form 7** plugin installed, you need to activate the plugins through menu **Appearance > Install Plugins**.

After the plugins active, Zeyn Theme is ready to use now !

To learn how to use WPBakery Visual Composer plugin please read [WPBakery Visual Composer Plugin Documentation](#).

### WooCommerce Plugin Template

Zeyn theme supports WooCommerce Template. To understand how to use WooCommerce Plugin please read [WooCommerce Plugin Documentation](#).

### Importing Demo Content

You can start begin using this theme by importing demo content. You can get the demo content in **demo\_content** folder file where this file is included in installation zip file.

Inside this folder you'll find 7 files demo content and a folder named rev\_slider.

Inside this folder you'll find 4 files demo content (.xml), 1 file WP Options (.json) and 2 folders named rev\_slider and themes\_option.

The 4 files demo contents i.e :

- **demo\_content.xml**, contains Zeyn wordpress demo contents such as Pages and Posts. Import this demo content through menu *Tools > Import* then choose *WordPress*.
- **contactform7.xml**, contains Zeyn Contact Form 7 contents. Import this demo content through menu *Tools > Import* then choose *WordPress*.
- **portfolio.xml**, contains Zeyn Portfolio Custom Post contents. Import this demo content through menu *Tools > Import* then choose *WordPress*.
- **woocommerce\_content.xml**, contains Zeyn Woocommerce contents. Import this demo content through menu *Tools > Import* then choose *WordPress*.

1 file Wordpress Options i.e :

**wp\_options.json**, contains WordPress Options settings. Import this demo content through menu *Tools > Import* then choose *Options*. Click *browse* button, select file **wp\_options.json** then click *Upload file and Import* button.

In folder **themes\_option** you will find 14 JSON files. Each file contains different Theme Options settings. Import this demo content through menu *Appearance > Theme Options* then choose *Import / Export* tab. Click Import from file button, open a file JSON then copy and paste file content to text area, then click Import button.(see also Import / Export Theme Options)

In folder **rev\_slider** you will find 14 ZIP files. Import this Revolution Slider zip files through menu *Revolution Slider > Import Slider*.

## Example Importing Demo : Restaurant

1. From Admin Panel : *Tools > Import > Wordpress*, click *choose file* button and then select corresponding file from **demo\_content/demo\_content.xml**. Continue with *Upload File and Import*.
2. As Restaurant demo page contains Reservation Form, we need to restore it as well. Repeat the step above, and import this file : **demo\_content/contactform7.xml**

3. Food gallery section is portfolio type post. To restore it, open : **demo-content/portfolio.xml**, repeat the step #1.
4. Open up restaurant json file using text editor from **demo\_content/themes\_option/theme\_restaurant.json** , copy all of its code.
5. Next we import JSON file from : *Appearance > Theme Options > Import / Export* Click *Import From File* button, and paste your copied code to the textarea. Continue with clicking *Import* button.
6. Importing slider is done from *Revolution Slider* menu, click *Import Slider* green button on the right hand side of the screen. Select from **demo\_content/rev\_slider/zeyn\_resto.zip**, and click *Import Slider*.

## Theme Options

The theme comes packed with features that control the layout and extend the functionality of Zeyn Theme. This section will document those features and how to use them. The theme comes with a simple to use administration panel. You can access it by navigating to menu Appearance > Theme Options. The theme options in each tab contains the options relating to a particular area of the theme. There are 10 tabs setting i.e Top Bar Settings, Main Navigation Settings, Banner Settings, General Settings, Footer Settings, Styling Options, Advanced Settings, SEO Settings, Theme Information & Update, and Import / Export.

## Top Bar Settings

Top Bar will be displayed at the very top of the page. Top Bar is divided into 2 section content i.e the left section content and the right section content.

The Top Bar Settings panel looks like below image :  *Top Bar Settings*

In Top Bar Settings tab, you can :

- show / hide top bar by clicking “Yes” or “No” buttons.
- setup the left section content and right section content of top bar.

The **Top Bar** looks like below image on top of web page:

*Top Bar looked on frontend*

## Main Navigation Settings

## Styling Options

## Advanced Settings

Advanced Settings is used to facilitate the user to customize the template by adding the CSS code or Javascript / Jquery code. Please be careful to use this feature. You must understand CSS code and

Javascript/JQuery code to use this feature. The Advanced Settings panel looks like below image :

# Advanced Settings

## CSS Code

Paste your CSS code here.

```
1 body{  
2 height: 100%;  
3 }
```

Your css code will saving at /css/customstyle.css

## JS Code

Paste your JS code here. JS Code loaded on end of page

```
1 jquery(document).ready(function(){  
2  
3});
```

Be careful!

## Advanced Settings

## SEO

SEO Settings is used to give a chance to user to add meta author, meta description, meta keyword, and custom code to whole pages. If you want to add meta author, meta description, and meta keyword in specific page, please read Page SEO.

# SEO

## Meta Author

Type your meta author.

Djavaweb

## Meta Description

Type your meta description. Googlebot loves it if it's not exceeding 160 characters or 20 words.

Launch Your Wordpress Site in Minutes

## Meta Keyword

Type your meta keyword separated by comma. Googlebot loves it if it's not exceeding 160 characters or 20 words.

omnipress, wordpress template, template, wordpress

## Custom Code

Paste your html code here. It will be added before the closing </body> tag.

## SEO Settings Editor

```
<meta name="keywords" content="Zeyn, wordpress template, template, wordpress">
<meta name="description" content="Launch Your WordPress Site in Minutes">
<meta name="author" content="Djavaweb">
```

While custom code is used to add additional code to the whole pages such as Google Analytic code etc. This code will be added before the closing body tag.

## Theme Information & Update

In Theme Information & Update Tab you can find some information about Zeyn Theme and set up your License Number. You could enter your License Number with your Purchase Number from Themeforest.

The Theme Information & Update panel looks like below image :

The screenshot shows a panel titled "Theme Information & Update". On the left, there is a "License Number" field containing "012345-abcde-000" with a note below it: "License number from themeforest.net". To the right of the license number, there is a section for theme details: "Zeyn" by [detheme](#), Version 1.0.0, with tags "editor-style", "featured-images", "post-formats", and "translation-ready". Below this, there is a link: "The Awesome Wordpress Theme by detheme".

## Theme Information & Update

### Import / Export

In Import / Export Tab is used to restore or backup Theme Options Data. The data to be imported or exported should be in JSON format.

# Import / Export Options

## Import Options

[Import from file](#) [Import from URL](#)

[Import](#)

**WARNING!** This will overwrite all existing option values, please proceed with caution!

## Export Options

Here you can copy/download your current option settings. Keep this safe as you can use it as a backup should anything go wrong, or you can use it to restore your settings on this site (or any other site).

[Copy](#) [Download](#) [Copy Link](#)

## Import / Export Options

There are 2 alternative options ways to import Theme Options Data i.e *Import from file* or *Import from URL*.

- Click *Import from file* button, copy and paste the JSON code from JSON file to text area, then start importing data by clicking *Import* button.
- An other way, Click *Import from URL* button, enter the URL of JSON file to text input, then start importing data by clicking *Import* button.

There are 3 alternative options ways to export/back up Theme Options Data i.e *Copy*, *Download*, *Copy Link*.

- Click *Copy* button, copy the JSON code from text area, paste the JSON code to a text file.
- The simplest way to back up Theme Options Data is by clicking *Download* button, save, then you will receive a JSON file.
- An other way, Click *Copy Link* button, the URL will be displayed, then you can download file or show code using that URL.

## Page Attributes & SEO

### Page Attributes

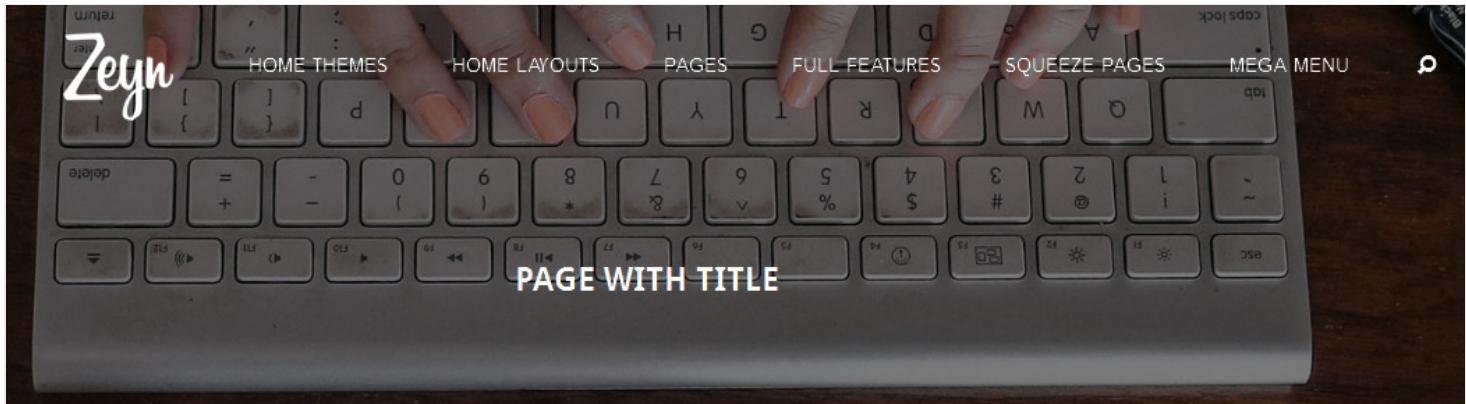

Each page in this theme has additional page attributes i.e.

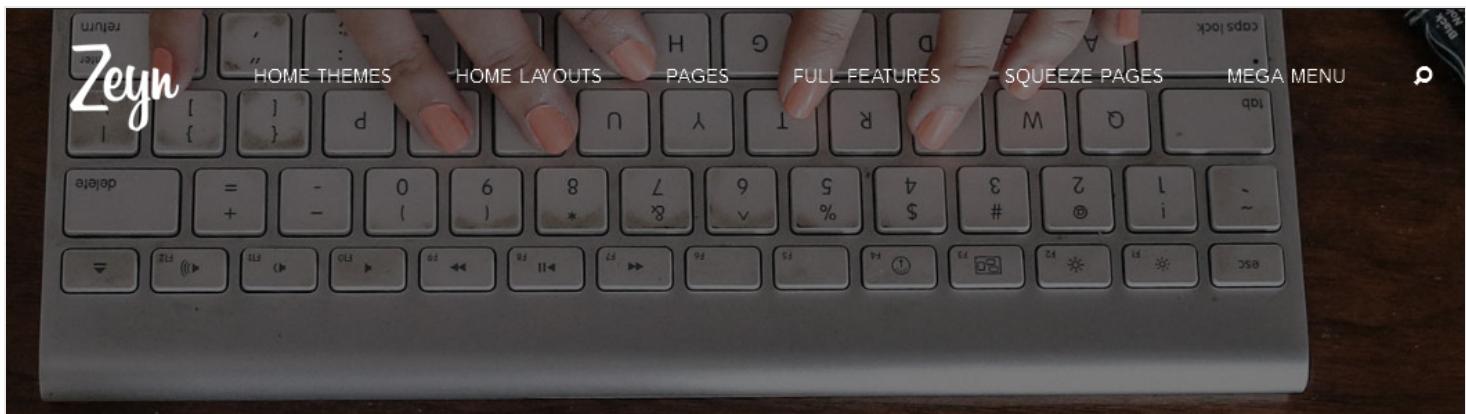

## Page Attributes

### Hide Title

As default, page title is shown on top of page. But if you want to hide page title, you can do it by checking hide title page attribute option.

*Page with Title*

*Page without Title*

The screenshot shows the ZEYN Documentation website. At the top left are social media icons for Facebook, Twitter, Google+, LinkedIn, and Pinterest. The top center has a navigation bar with the text "Worldwide Travelling". The top right shows the text "Admin - July 15, 2014" and three small thumbnail images. The main content area below the header contains a heading and some text.

*Fullwidth Template looked on frontend*

## Portfolio Template

If you choose this template, the page will show portfolio posts. (See also Portfolio).

You could choose Layout Type Options i.e. Squared Image (boxed), Image and Text (boxed), Squared Image (full) and Fix Height Image (full).

The screenshot shows the ZEYN Portfolio Template. At the top, there is a navigation bar with categories: ALL PROJECTS (highlighted in orange), AUTOMOTIVE, BRANDING, DESIGN & ARTWORK, HUMAN & NATURE PHOTOGRAPHY, TRAVELLING, VIDEOGRAPHY, and WEB DESIGN. Below the navigation bar is a grid of six portfolio items, each with a different image and category label:

- A red Ferrari sports car (AUTOMOTIVE)
- The interior of a classic red sedan (BRANDING)
- The interior of a modern hybrid car (DESIGN & ARTWORK)
- Two feet wearing Converse sneakers in a field (HUMAN & NATURE PHOTOGRAPHY)
- A young girl standing on a rocky hillside (TRAVELLING)
- A herd of horses running through a misty field (VIDEOGRAPHY)

## Woocommerce Page

## Portfolio

Zeyn Theme comes with Portfolio Custom Post. You could add new Portfolio by navigating to Portfolios > Add New. When you add new portfolio, you could choose category or add new category for portfolio.

Add a featured image to portfolio post where the featured image will be displayed on Portfolio Template Page (See Portfolio Template) or on Widget Area as thumbnail (see DT Portfolio Image Widget).

*Portfolio featured images are displayed as thumbnails on Page with Portfolio Template Page*

Add gallery to portfolio post where the gallery will be displayed on top of *Portfolio Detail Page* as slider. You also could add information about client, date, and website in custom fields. This information also will be displayed on *Portfolio Detail Page*.

The screenshot shows the WordPress 'Edit Page' interface. At the top left is the title 'faucibus dolor auctor'. Below the title are three buttons: 'Edit', 'View Page', and 'Get Shortlink'. On the far right of the top bar is a 'Screen Options' dropdown. The main content area contains the post content: 'Vivamus sagittis lacus vel augue laoreet rutrum faucibus dolor auctor. Cras justo odio, dapibus ac facilisis in, egestas eget quam. Donec sed odio dui. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Nullam id dolor id nibh ultricies vehicula ut id elit. Cras justo odio, dapibus ac facilisis in, egestas eget quam. Vivamus sagittis lacus vel augue laoreet rutrum faucibus dolor auctor. Cras justo odio, dapibus ac facilisis in, egestas eget quam. Donec sed odio dui. Aenean eu leo quam. Pellentesque ornare sem lacinia quam venenatis vestibulum. Nullam id dolor id nibh ultricies vehicula ut id elit. Cras justo odio, dapibus ac facilisis in, egestas eget quam.' To the right of the content is a sidebar titled 'Portfolio SEO' with fields for 'Meta Author', 'Meta Keyword', and 'Meta Description'. The 'Meta Keyword' field contains the instruction 'Type your meta keyword separated by comma. Googlebot loves it if it's not exceeding 160 characters or 20 words.'

## RELATED PROJECT

*Gallery and project detail information are displayed on Portfolio Detail Page.*

Beside using Portfolio Template Page, you also could display portfolio on page using Detheme Visual Composer Add On Element (Read also DT Portfolio Image). If you want to display portfolio on widget area, you could use DT Portfolio Image Widget (read DT Portfolio Image Widget).

## Detheme Visual Composer Add on Elements

DeTheme Visual Composer Add on is a special Visual Composer Add On for Visual Composer Plug in. If you are new using Visual Composer Plug in you could learn it on [http://kb.wpbakery.com/index.php?title=Visual\\_Composer](http://kb.wpbakery.com/index.php?title=Visual_Composer)

There are 15 additional elements comes with DeTheme Theme i.e.

- DT Icon Box
- DT Section Heading
- DT Pricing Table
- DT Vertical Tab
- DT Portfolio Image
- DT Carousel
- DT Custom Team Item
- DT Timeline
- DT Progress Bar Item
- DT Circle Bar
- DT Twitter Slider
- DT Optin Form
- DT Countdown Timer
- DT Partner
- DT Google Map

These elements appears in page editor.

The screenshot shows a grid of 12 elements under the heading "Detheme Visual Composer Add On Elements". The elements are arranged in three rows of four. Each element has a "DT" icon followed by its name and a brief description. A search bar at the top allows filtering by element name.

Show all	Content	Social	Structure	New elements	WordPress Widgets	deTheme
Icon Box	Section Heading	Pricing Table	Vertical Tab	Portfolio Image		
Carousel	Custom Team Item	Timeline	Progress Bar Item	Circle Bar		
DT Twitter Slider	Optin Form	Countdown Timer Use this widget to show countdown	Partner Show partner logo	Google Map Show google map		

*Detheme Visual Composer Add On Elements.*

## DT Icon Box

DT Icon Box is used to display icons in content.

The element editor looks like below image :

The screenshot shows the "Edit Icon Box" element editor. It includes fields for "Icon" (with a placeholder icon of a person) and "Layout type". Below these, there are seven preview cards showing different layout variations. The first card in the top row is highlighted with a blue border, indicating it is the selected layout.

Icon

### DT Carousel Container Editor.

After you add DT Carousel, you could add Visual Composer elements into DT Carousel element to display as carousel item. For example the below Visual Composer elements :

The screenshot shows the Visual Composer Element Editor interface. At the top, there are icons for list view, grid view, and a search/filter field. Below the toolbar, the title "Section Heading" is displayed, with a note "Main Heading: Default Pagination". The main content area contains four items, each with a small orange folder icon. Item 1: "Hi omnes lingua, institutis, legibus inter se differunt. Ullamco laboris nisi ut aliquid ex ea commodo consequat. Quo usque tandem abutere, Catilina, patientia nostra? Ut enim ad minim veniam, quis nostrud exercitation. Ut enim ad minim veniam, quis nostrud exercitation." Item 2: "Magna pars studiorum, prodita quaerimus. Cras mattis iudicium purus sit amet fermentum. Idque Caesaris facere voluntate liceret; sese habere. Donec sed odio operae, eu vulputate felis rhoncus. Quisque ut dolor gravida, placerat libero vel, euismod. Ambitioni dedisse scripsisse iudicaretrur." Item 3: "Curabitur blandit tempus ardua ridiculus sed magna. Tu quoque, Brute, fili mi, nihil timor populi, nihil! Quo usque tandem abutere, Catilina, patientia nostra? Curabitur est gravida et libero vitae dictum. Fictum, deserunt mollit anim laborum astutumque! Praeterea iter est quasdam res quas ex communi." Item 4: "Quisque ut dolor gravida, placerat libero vel, euismod. Donec sed odio operae, eu vulputate felis rhoncus. Quo usque tandem abutere, Catilina, patientia nostra? Cum sociis natoque penatibus et magnis dis parturient. Ab illo tempore, ab est sed immemorabili." At the bottom, the module title is "Custom Team".

### DT Carousel Item Editor.

The above elements will look like below image on frontend with carousel effect animation :

## DEFAULT PAGINATION

Hi omnes lingua, institutis, legibus inter se differunt. Ullamco laboris nisi ut aliquid ex ea commodi consequat. Quo usque tandem abutere, Catilina, patientia nostra? Ut enim ad minim veniam, quis nostrud exercitation. Ut enim ad minim veniam, quis nostrud exercitation. Donec sed odio dui. Donec ullamcorper nulla non metus auctor fringilla. Etiam porta sem malesuada magna mollis euismod. Curabitur blandit tempus porttitor. Lorem ipsum dolor sit amet, consectetur adipiscing elit.

Magna pars studiorum, prodita quaerimus. Cras mattis iudicium purus sit amet fermentum. Idque Caesaris facere voluntate liceret: sese habere. Donec sed odio operae, eu vulputate felis rhoncus. Quisque ut dolor gravida, placerat libero vel, euismod. Ambitioni dedisse scripsisse iudicareatur.

## IMAGE PAGINATION

Gallia est omnis divisa in partes tres, quarum. Quisque placerat facilisis egestas cillum dolore. Cum sociis natoque penatibus et magnis dis parturient. Cras mattis iudicium purus sit amet fermentum. ## DT Twitter Slider

DT Twitter Slider element is used to display tweets in slider in content. This feature needs cURL Library to be installed and activated on web server.

The element editor looks like below image :

## Edit DT Twitter Slider

Twitter Account:

Number of tweets to show:

Date Format:

%d : day, %m: month in number, %b: textual month abbreviation, %B: textual month, %y: 2 digit year, %Y: 4 digit year

Template :

```
{{date}}  
{{tweet}}
```

{{date}}: Post Date, {{tweet}}: tweet text

Auto Play:

 Yes

Set Autoplay

Transition Threshold (msec):

Slide speed (in millisecond). The lower value the faster slides

## DT Twitter Slider Editor.

The element looks like below image on frontend :

The screenshot shows the configuration interface for the DT Twitter Slider. It includes fields for Twitter Account (envato), Number of tweets to show (4), Date Format (%b. %d, %Y), Template ({{date}}\n{{tweet}}), Auto Play (Yes), and Transition Threshold (500 msec). A note indicates that a lower value makes the slides faster. At the bottom are Save and Cancel buttons.

## TWITTER SLIDER

Sep. 4, 2014

RT @selinali: Great to see @envato leading the way in the Australian tech scene with transparent gender diversity figures! <http://t.co/WCfNu...>

## DT Optin Form

DT Optin Form element is used to display Optin Form in content. You could add optin form code from email marketing & autoresponder sites such as MailChimp.com, GetResponse.com, aweber.com etc. You also could arrange the form layout.

The element editor looks like below image :

The screenshot shows the 'Edit Optin Form' dialog box. At the top, there are tabs for 'General', 'Form Preview', and 'Design options'. Below the tabs, under 'Choose Layout', there are three examples of form layouts. The first layout on the left has a blue border and contains 'Name' and 'Email' fields with a 'SUBMIT' button at the bottom. The second layout in the middle has 'Email' and 'SUBMIT' buttons. The third layout on the right has 'Email' and 'SUBMIT' buttons side-by-side. Below these examples is a preview area with 'Name', 'Email', and 'SUBMIT' fields. At the bottom, there is a code editor with the placeholder 'put your optin form code here' and 'Save' and 'Cancel' buttons.

### DT Optin Form Layout and Code Editor.

As an example add getresponse code below to optin code field :

```
<div id="WFItem4517205" class="wf-formTpl">
    <form accept-charset="utf-8"
action="https://app.getresponse.com/add_contact_webform.html?u=lnaV"
method="post">
    <div class="wf-box">
```

```
<div id="WFIheader" class="wf-header el" style="height: 25px;  
display: block !important;">  
    <div class="actTinyMceElBodyContent">  
        <p>  
            <span style="font-size: 24px;">Headline</span>  
        </p>  
    </div>  
    <em class="clearfix clearer"></em>  
    </div>  
    <div id="WFIcenter" class="wf-body">  
        <ul class="wf-sortable" id="wf-sort-id">  
            <li class="wf-name" rel="undefined" style="display: block  
!important;">  
                <div class="wf-contbox">  
                    <div class="wf-labelpos">  
                        <label class="wf-label">Name:</label>  
                    </div>  
                    <div class="wf-inputpos">  
                        <input class="wf-input" type="text" name="name"></input>  
                    </div>  
                    <em class="clearfix clearer"></em>  
                </div>  
            </li>  
            <li class="wf-email" rel="undefined" style="display: block

## Contact Form

Zeyn Theme using Contact Form 7 Plugin to create contact form in content. To make contact form looks like below image, use the HTML code below.

The screenshot shows a contact form titled "Send us email". It includes fields for "Your Name" (with a person icon), "Email" (with an envelope icon), and "Subject" (with a speech bubble icon). To the right is a larger text area labeled "Message". At the bottom right is a red "SEND" button.

*Contact Form looked on frontend.*

Go to menu Contact > Add New. Put the below code in Contact Form 7 plugin Form, please pay attention the class attribute in html code. Then put the Contact Form 7 Element to Visual Composer Row.

```
<div class="row dt-contact-form on-light">
    <div class="col-xs-12 col-sm-6">
        [text* your-name class:form-control placeholder "Your Name"]
        [email* your-email class:form-control placeholder "Email"]
        [text your-subject class:form-control placeholder "Subject"]
    </div>
    <div class="col-xs-12 col-sm-6">
        [textarea* your-message x6 class:form-control placeholder "Message"]
        [submit "Send Message" class:btn-color-primary]
    </div>
</div>
```

Copy this code and paste it into your post, page or text widget content.  
[contact-form-7 id="2847" title="Omnipress Demo Contact on Light"]

**Save**

**Form**

```
<div class="row dt-contact-form on-light">
<div class="col-xs-12 col-sm-6">
  [text* your-name class:form-control
placeholder "Your Name"]
  [email* your-email class:form-control
placeholder "Email"]
  [text your-subject class:form-control
placeholder "Subject"]
</div>
<div class="col-xs-12 col-sm-6">
  [textareat* your-message x6 class:form-control
placeholder "Message"]
  [submit "Send Message" class:btn-color-primary]
</div>
</div>
```

**Generate Tag**

**Mail**

The widget editor looks like below image :

#### Accordion Description 1:

Plura mihi bona sunt, inclinet amari petere vellent.  
Quae vero auctorem tractata ab fiducia dicuntur. Quid  
securi etiam tamquam eu fugiat nulla pariatur. Ut enim  
ad minim veniam, quis nostrud exercitation.

#### Accordion Title 2:

Our Vision

#### Accordion Description 2:

At nos hinc posthac, sitientis piros Afros. A communi  
observantia non est recedendum. Ut enim ad minim  
veniam, quis nostrud exercitation.

#### Accordion Title 3:

Our Technology

#### Accordion Description 3:

Unam incolunt Belgae, aliam Aquitani, tertiam. Cum  
ceteris in veneratione tul montes, passatus suis.

The screenshot shows a modal window for editing an accordion item. At the top, there is a large empty text area with a placeholder text: "CETIIS IN VENETIAUIC TUR MONTES, FRASCIORI MUS." Below this is a title field labeled "Accordion Title 4:" containing the text "Our Commitment". Underneath is a description field labeled "Accordion Description 4:" containing the text "Fictum, deserunt mollit anim laborum astutumque! Nihil hic munitissimus habendi senatus locus, nihil horum.". At the bottom left are "Delete" and "Close" buttons, and at the bottom right is a blue "Save" button.
